

Discover the Technogel Experience

ancestors recognized the benefits of sleep.

Today the Better Sleep Council reveals that consumers value the power of sleep for improved cognition, memory, health and daily performance. The research also shows that consumers realize that a good mattress is key for getting a proper sleep.

“Early to bed and early to rise makes a man healthy, wealthy and wise” quoted by Benjamin Franklin in 1735. More than 280 years, our

The right mattress can facilitate a better sleep by providing optimal temperature control, pressure relief and spinal alignment.

At Sleep Experts we offer a full line of high performance and pressure management mattress systems. Technogel mattresses, featuring gel patented by Bayer Material Sciences, offer the ultimate in sleep technology.

Unlike spring mattresses which move up and compress down, Technogel 3 dimensional deformation and unique tower design move in all directions. The soft solid gel cradles you by relieving pressure, promoting better circulation to hips, neck, shoulders and back. Clinical studies have proven that subjects

sleeping on Technogel stay in deep restorative sleep up to 44 percent longer.

Traditional foam mattresses insulate, absorb and trap heat causing you to “sleep hot”. Technogel has unsurpassed thermal conductivity and ventilation channels which disperse heat through the sleep surface. Both help to lower skin temperature creating a cooler more comfortable sleep.

Unlike most “gels” Technogel contains no plasticizer oils and won’t

crack or break down over time. Completely free of harmful VOCs, Technogel provides a healthy sleep environment without chemicals or off gassing.

Sleep Experts is an exclusive dealer for Technogel mattresses and ergonomic pillows.

We invite you to stop in to experience the world of Technogel and welcome a restful night sleep.

Sweet Dreams!
